ASK DR. ZIEGLER

WHAT SETS YOUR PRACTICE APART?

Our patient-centered approach. We have a team of highly skilled, experienced dentists in one location that perform all aspects of cosmetic and implant dentistry and all other dental procedures as well. We also offer convenient hours to patients with early morning and also evening hours until 9 p.m. four nights a week. In addition, our practice is structured so that, often, we can start patients on their desired treatment the same day as their consultation. Sometimes patients come in, get the process started and walk out with a beautiful and dramatic change in the very same day.

HOW DO YOU PUT PATIENTS AT EASE?

I don't rush them to the exam room. I meet all my new patients in my private office first to give them an overview of the practice and learn about them and their goals. By the time we go to the treatment room, they are so much more relaxed because they already had a lot of their questions answered in an informal, comfortable environment.

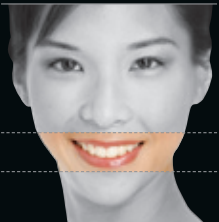

HOW DO YOU DEFINE A SUCCESSFUL RESULT?

When the patient's eyes light up after seeing their new smile, I know our cosmetic team has done a great job.

Dental cosmetic creations

Many of the patients entering Dr. Ziegler's office request complete smile makeovers. "When I look at a person, I can immediately visualize what his or her mouth will look like after treatment. I guess it's because I have been doing this for more than three decades. And, I'd have to say, I'm a perfectionist—I am more difficult to please than my patients." With a desire to create aesthetic smiles, Dr. Ziegler proves extremely meticulous, transforming smiles in just a single visit with temporary restorations. "These restorations remain on teeth throughout treatment and enable patients to look and feel great before they achieve end results. When you look at the before-and-after photos of my patients, it's as if they underwent facial rejuvenation, as they appear years younger. Many of them say, 'Why did I wait so long?' Dramatically changing people's lives is so rewarding," Dr. Ziegler says—with a smile.

COSMETIC CONSULTATION

WHAT CAN I EXPECT FROM A SMILE MAKEOVER CONSULTATION?

Our consultations are very productive, as they set the stage for what your new smile will look like. We sit down with every new patient and listen, letting them explain their goals. Most want beautiful, healthy smiles. From there, we get right to work. We perform a thorough exam, and many patients begin their individualized treatment during the very first visit.
